

Seminar of Materials-Measurement Hybrid Research Center (The 8th Seminar on Nano-Micro Chemical Measurements)

- Date July 19th, 2022,
Room S247, IMRAM West #1 Bldg. (+online (hybrid))
9:00 Reactivity of atmospheric aerosol particles: a single particle point of view
Dr. Sophie Sobanska,
Institut des Sciences Moléculaires,
Université de Bordeaux, UMR CNRS 5255
10:00 Laser Trapping and Spectroscopy of Single Water Droplets in Air
Dr. Shoji Ishizaka,
Hiroshima University

The lecturers are specialists in laboratory experiments for atmospheric chemistry, especially for spectroscopic measurements of the trapped single aerosol droplet.

Host: Akihide HIBARA & Masao GEN, IMRAM, Tohoku University
